Muhamad Sodikin
Full Stack Developer

Depok, Indonesia | +6281386478764 | msodikin@students.hacktiv8.ac.id | [LinkedIn](#) | [Github](#) | [Portfolio](#)

SUMMARY

A passionate and adaptable **Full Stack Developer** with strong analytical thinking, problem-solving, and leadership abilities. Experienced in building modern web applications from front to back using **JavaScript** and **Java** ecosystems. Skilled in **React.js, Redux, Next.js, TailwindCSS, Bootstrap, HTML, and CSS** for front-end development, and **Node.js, Express.js, Sequelize, PostgreSQL, MongoDB, REST API, and Postman** for back-end implementation. Proficient in **Java Spring Boot, Spring Security, JPA (Hibernate), Maven, SQL Query, and Swagger** for enterprise-level applications. Familiar with **AWS, DigitalOcean, Firebase, Supabase, and Vercel** for deployment and DevOps processes. Highly committed to clean code, continuous learning, and improvement through consistent practice.

EDUCATION

Hacktiv8	**Jakarta, Indonesia**
Full Stack JavaScript Immersive Program ([Transcript](#))	*December 2024 – April 2025*

Sinau Koding Plus	**Jakarta, Indonesia**
Back End Web Developer (Java Springboot) ([Transcript](#))	*September 2025*

Binasarana Informatika University	**Depok, Indonesia**
Bachelor of Computer Technology ([Transcript](#))	*September 2016 – September 2019*

WORK EXPERIENCES

PT. Molome Dalome	**Jakarta, Indonesia**
Full-Stack Developer(JavaScript)	*September - December 2025*

- Built and developed a fullstack web application from scratch using Node.js, Ecpress.js, Sequelize, and React.js, implementing clea and modular architecture with complete CRUD features.
- Implemented role-based access control (RBAC) for Admin and Customer, including authentication, authorization, and secure API access.
- Designed and integrated RESTful APIs with consistent endpoint structure, standardized JSON responses, Postman testing, and centralized error handling with custom validations.
- Identified, analyzed, and migrated required features from the legacy application to the new system.

Sinau Koding Plus	**Jakarta, Indonesia**
Back End Web Developer (Java Springboot)	*September 2025*

- Managed clean architecture: Proper layered design with controllers, services, repositories.
- Created Solid Principles: Interface segregation, dependency inversion, single responsibility.
- Implemented JWT authentication and role-based access control.
- Maintained error handling: Global exception handling, custom validators.
- Managed database optimization: JPA relationships, indexing, lazy loading.
- Created API Design: RESTful endpoints, standardized responses, OpenAPI (Swagger).

Forage ([website](#)) *Virtual internship*	**Jakarta, Indonesia**
Citi – Technology Software Development	*June 2025*

Electronic Arts – Software Engineering
- Apply clean code principles to write readable, maintainable, and scalable code.
- Perform bug fixing and refactoring to enhance application stability and performance.
- Integrate external/internal REST API, handle json response data effectively.

Hacktiv8   **Jakarta, Indonesia**
   Full Stack Developer (JavaScript)   *December 2024 – April 2025*
- Implemented backend development using MVC architecture, Node.js, Express, PostgreSQL, Sequelize, and EJS for data flow from database to view.
- Built RESTful APIs with middleware, error handling, and deployed servers on AWS and DigitalOcean.
- Developed frontend applications with React.js (hooks, router, Redux) and integrated 3rd party APIs and deployed application on Supabase, Vercel and Firebase.
- Gained advanced fullstack experience with React Native, Next.js, TypeScript, GraphQL, and MongoDB.

Food & Beverage Industry Experiences   **Indonesia and Kuwait**
   ASSKAHVE (Coffee Shop Kuwait) *Head Bar*   *November 2022 – December 2024*
   SINI COFFEE AND FRIENDS *Store Manager*   *October 2021 – July 2022*
- Managed store operations, including staff scheduling, service, and cleanliness.
- Ensured all procedures are followed efficiently and solved customer complaints professionally and effectively.
- Maintained good communication and ensured the team works well together with a positive and professional attitude.

Bahasakuinggris and Interpeace Pare (Kampung Inggris)   **Kediri, Indonesia**
   Teacher   *August 2020 – October 2021*
- Provided clear feedback to help students improve their skills.
- Managed bar operations, ensuring the quality of drinks and cleanliness.
- Provided solutions based on the difficulty level of the material to students need.

BANK CIMB NIAGA   **Jakarta, Indonesia**
   HBSR (Haji Business Sales Representative)   *October 2019 – February 2020*
- Described the Hajj procedures in detail to customer
- Managed Hajj registration documents accurately and according to procedures.
- Responded to inquiries and concerns promptly, professionally, positive, helpful attitude, and ensuring confidence in their decisions.

SKILLS

Languages: Indonesia(fluent) and English (Intermediate)
Programming Language: JavaScript and Java.
Front End: React JS, Redux, Html, Css, Next.js, TailwindCSS, Bootstrap,
Back End: Node JS, Express, Sequelize, PostgreSQL, MongoDB, Rest API, Postman. Java, Spring Boot, Spring Security, JPA (Hibernate), Maven, SQL Query, Docker, and Swagger.
DevOps: AWS, Cloudflare, DigitalOcean, Firebase, Vercel, and Reander

PROJECTS

Library Management System (*library.msodikin.web.id*)   *Sept 2025*
Library Management System is a web application designed to manage a digital library, allowing administrators and members to manage books, borrowings, and user profiles with a secure system. *Tech stack: Java 21 | Spring Boot 3.5.5 | Spring Security | Spring Data JPA | PostgreSQL | Maven | JWT | Bcrypt | Swagger OpenAPI | and Render.*

KinChat (Chatbot) (*kinchat.msodikin.web.id*)   *Sept 2025*

A web application that enables users to interact with an AI-powered chatbot, supporting text, audio, image, and document inputs.

Tech stack: Next.js | Tailwind CSS | TypeScript | API Routes | third party AIGemini | and Vercel.

POKER kampung inggris (*kampunginggrispoker.com*)   *July 2025*

A website that we can get more information and make you get more knowledge about english course.

Tech stack: Next js | TailwindCss | Radix UI | Lucide-react, | Framer-mootion | Scrollmagic | Toast | React-Hook-Form, Zod | Axios | Shadcn/ui | Integration with WhatsApp | and Vercel.

MyPersonalWeb (*www.msodikin.web.id*)   *May 2025*

A website to know more information about me.

Tech stack: Next.js | Reactbits | Aceternity UI | TailwindCss | CSS | and Vercel.

Wisata App (*wisatapp.com*)   *April 2025*

A diary website that we can get more information and make you get more knowledge

Tech stack: React js | TailwindCss | Reacbits | Railway.app | Redux | and Firebase.

WOC (*woc.msodikin.web.id*)   *March 2025*

A mobile and web to display restaurant menu.

Tech stack: Next,js | MongoDb | Toast | TailwindCss | DaisyUi | Server Side | and Vercel.

CERTIFICATIONS

Speaker
As Speaker Of Education Training   *Issued on January 2021*
Certificate: Speaker.Certificate   *No expiration date*

Basic English Course
As Student   *Issued on August 2020*
Certificate: BEC.Certificate   *No expiration date*

Academy Coffee Training (ACTA)
As Barista   *Issued on August 2021*
Certificate: ACTA.Certificate   *No expiration date*

Dicoding Academy
As Programmer   *Issued on March 2024*
Certificate: Dicoding.certificate   *expiration date on March 2027*

HackerRank
As Programmer   *Issued on March 2025*
Certificate: HackerRank.Certificate   *No expiration date*

Citi
As Technology Software Development   *Issued on Jun 2025*
Certificate: Citi.certificate   *No expiration date*
